

HOW TO ORDER

Step 1 Determine your size

Before you place your order please take the time to determine your exact measurements. This will allow us to make you a custom designed vest with a perfect fit. Please write your measurements down carefully because you will need to provide them when you are placing an order.

A. Chest circumference:

The red line indicates the region for measuring your chest circumference, which goes all the way around your chest at arm pit height.

.....inch

B. Chest width:

This is measured at the same height as the circumference, only the width will be the frontal section from side to side across the chest.

.....inch

C. Chest height:

The blue line indicates the region for measuring the chest height. This will be the distance from in between the collarbones to your belly button.

.....inch

D. Waist circumference:

The green line indicates the region for measuring your waist circumference, which goes all the way around your midsection at the level of your belly button.

.....inch

If you have checked your correct measurements please proceed to step 2.

Step 2 Select your product

Go to our product page and click on the ORDER NOW button of the product of your choice.

Step 3 Select your options

You will be directed to the highly secured website of myPaySystems where you can specify if you would like to upgrade your vest with anti-stab (if applicable), select your chest circumference and the color of your vest (if applicable). More detailed measurement information will be taken in step 5.

If you have selected the appropriate options please click the FINALIZE ORDER button.

Step 4 Enter shipping information

In this screen you have to enter your name, address and other required shipping information. After having completed this form please select the PROCESS TRANSACTION button. In the next screen please also click on the PROCESS TRANSACTION. Because our prices include courier shipping we do not charge you any shipping costs.

Step 5 Enter your payment details

Now you arrive at the payment section where you are allowed to securely enter your credit card details and your measurement details. After having completed these fields please select the PROCESS TRANSACTION button.

In the next screen you will find an overview of the transaction. Please carefully check if all the information is correct and press the CLICK ONCE TO CONFIRM button

Step 6 Transaction check and confirmation

The system will now process your information and check if they are correct. If the transaction has been successful you will receive an e-mail with your transaction details.
